

## CAPABILITY & CAPACITY

- Sheet metal fabrication: laser cut, press, CNC machine, weld, assembly & powder coat
- Pipe manufacture, weld & assembly: mild steel, stainless and exotic material
- Structural steel: weld, assembly, passivate, blast & paint
- Assembly, test and quality control
- Construction and site commissioning/decommissioning
- Industrial Maintenance and shut-downs
- Haulage: fleet of Prime Movers & low-loaders

## DIFFERENTIATION

- Turn-key solutions at scale: fabrication, manufacturing, construction & site commissioning
- Sovereign manufacturing capability: 100% Australian owned and operated
- Purpose built factory (over 13,000 m2)
- Single source for large scale turn-key manufacturing and fabrication, coatings, assembly & test, NDT, fully documented QA and QC

## ACCREDITATION & CERTIFICATION

## CUSTOMERS

MTE is a turn-key engineering, fabrication and manufacturing business operating across resources, defence, utilities and industrial sectors. With a multi-disciplinary team of over 250 people, MTE offers turn-key solutions at scale spanning structural mechanical piping manufacture, poly piping, sheet metal fabrication and coatings, suitable for a range of naval, infrastructure, maintenance & sustainment applications.
