

COMPANY / CAPABILITY OVERVIEW

Wormald has over 134 years of experience in the provision of marine and land-based fire protection, life safety and high security systems. Wormald has extensive experience with CoA RAN, Collins Class Submarines, ANZAC frigates AWD/DDG, LHD's, HMAS Choules, supply and survey vessels, minehunters and RAN support work boats, as well as CoA Army fighting and support vehicles.

We have specialist Defence land based and marine, ready in-house, design and engineering capability across electrical and mechanical fire protection and security disciplines, with a network of direct employee and approved subcontractors to support installation and services around the country.

Wormald have access to local and international supply chains to offer both pre-engineered and custom designed specialist bespoke solutions.
